MEHALIL ALI SAFI
SOFTWARE ENGINEER

Algiers | 0558070858 | safiou102003@gmail.com| www.linkedin.com/in/safi-mhalil |https://github.com/Mehalilsafi

SUMMARY

Software Engineer with experience building scalable web applications and designing modular system architectures using Next.js, Node.js, and modern web technologies. Experienced in developing real-time systems, multi-tenant platforms, and optimizing performance (48→97 Lighthouse). Strong understanding of frontend and backend integration, with a focus on clean architecture, scalability, and efficient delivery using AI-assisted workflows.

WORK EXPERIENCE

WIIN Mostaganem
Full Stack Intern Jan 2024 – May 2024

- Developed a full stack e-commerce platform using Next.js and tailwind CSS and Supabase, improving customer experience and online visibility
- Built and integrated three dashboards to streamline operations and management across the platform

AYOR Algiers,Hydra
Software Engineer Nov 2025 – Present

- Increased store performance from **48 → 97** by implementing a **backend-driven tag-based revalidation system** and optimizing rendering, caching, and asset delivery in Next.js
- Designed and implemented a real-time configurable system (website builder) with modular architecture and dynamic rendering
- Integrated **MyFatoorah payment gateway**, enabling secure and seamless checkout experience

AI-Assisted Development & Workflow

- Applied structured AI development workflows (brainstorm → planning → validation → agent execution → review) to accelerate feature delivery
- Used tools such as **Cursor, GitHub Copilot, and MCP integrations (Figma, Context7, Supabase)** to improve development speed and code quality

PROJECTS

REAL TIME PARKING SYSTEM Dec 2024

- Developed the frontend using React and integrated Google Maps API to display all available parking spots across the city
- Built REST API with Express.js and implemented Socket.io for real-time updates ,ensuring instant reflection of parking slot changes on the frontend

EDUCATION

HASSIBA BENBOUALI UNIVERSITY Chlef
Master Degree in Software Engineering Expected May 2026
Relevant Coursework: Advanced Data Structures ; Database; Distributed Systems ; Algorithms; Artificial Intelligence

HASSIBA BENBOUALI UNIVERSITY Chlef
Bachelor Degree in Computer Science May 2024
Relevant Coursework : Web Development ;Object Oriented Programming ; Operating Systems

ACTIVITIES

INFO CLUB Chlef
Workshop Mentor Feb 2024

- Mentored a Git & Github workshop organized by info club ,guiding participants through version control fundamentals and collaborative workflows

TECHNICAL SKILLS

Frontend : React.js, Next.js, TypeScript, Tailwind CSS, Shadcn/UI , TanStack ,React Router, Zustand ; **Backend**: Node.js, Express.js, REST API ; **Database**: PostgreSQL, MySQL, MongoDB, Supabase ; **DevOps & Tools**: Google Cloud Platform (GCP), Docker, Vercel, Git & GitHub ; **Methodologies**: Agile / Scrum

ADDITIONAL

Languages: Fluent in English, French, Arabic
Certifications & Training: Agile data science workshop , Workshop on smart agriculture ,image processing ,and artificial intelligence
